AUTHOR INDEX

A

Adams, D. J., and Oxford, G. S. Interactions of internal anions with potassium channels of the squid giant axon. 429
Adolph, A. R. *See* Kass, Hartline, and Adolph.
Armstrong, C. M. *See* López-Barneo and Armstrong.

B

Barlow, H. B. *See* Levick, Thibos, Cohn, Catanzaro, and Barlow.
Bar-Sagi, D. *See* Strichartz, Bar-Sagi, and Prives.
Baskin, R. J. *See* Lieber and Baskin.
Beam, K. G. *See* Donaldson and Beam.
Begenisich, T., and Danko, M. Hydrogen ion block of the sodium pore in squid giant axons. 599
Bezanilla, F. *See* Fernández, Taylor, and Bezanilla.
—. *See* Salzberg and Bezanilla.
Bhatnagar, G. M. *See* Stern, Kort, Bhatnagar, and Lakatta.
Boron, W. F. *See* Russell, Boron, and Brodwick.
Boulpaep, E. L. *See* Sackin and Boulpaep.
Brahm, J. Urea permeability of human red cells. 1
Brodwick, M. S. *See* Russell, Boron, and Brodwick.

C

Cala, P. M. Cell volume regulation by *Amphiuma* red blood cells. The role of Ca^{+2} as a modulator of alkali metal/H^+ exchange. 761
Campbell, D. T. Sodium channel gating currents in frog skeletal muscle. 679
—. *See* Hahin and Campbell.
Catanzaro, D. *See* Levick, Thibos, Cohn, Catanzaro, and Barlow.
Christiansen, N. O. *See* Nørby, Klodos, and Christiansen.
Clarke, C. A. *See* Grinstein, Clarke, and Rothstein.
Cohn, T. E. *See* Levick, Thibos, Cohn, Catanzaro, and Barlow.
Corson, D. W., and Fein, A. Chemical excitation of *Limulus* photoreceptor. I. Phosphatase inhibitors induce discrete-wave production in the dark. 639
—, **Fein, A., and Walthall, W. W.** Chemical excitation of *Limulus* photoreceptors. II. Vanadate, GTP-γ-S, and fluoride prolong excitation evoked by dim flashes of light. 659
Cox, T. C. *See* Helman, Cox, and Van Driessche.
Crow, M. T., and Kushmerick, M. J. Correlated reduction of velocity of shortening and the rate of energy utilization in mouse fast-twitch muscle during a continuous tetanus. 703

D

Danko, M. *See* Begenisich and Danko.
Dawson, D. C. *See* Halm and Dawson.
—. *See* Kirk and Dawson.
Donaldson, P. L., and Beam, K. G. Calcium currents in a fast-twitch skeletal muscle of the rat. 449

F

Fay, F. S. *See* Warshaw and Fay.
Fein, A. *See* Corson and Fein.
—. *See* Corson, Fein, and Walthall.
Fernández, J. M., Taylor, R. E., and Bezanilla, F. Induced capacitance in the squid giant axon. Lipophilic ion displacement currents. 331

G

Gordon, J. *See* Tranchina, Gordon, and Shapley.
Grinstein, S., Clarke, C. A., and Rothstein, A. Activation of Na^+/H^+ exchange in lymphocytes by osmotically induced volume changes and by cytoplasmic acidification. 619

H

Hahin, R., and Campbell, D. T. Simple shifts in the voltage dependence of sodium channel gating caused by divalent cations. 785
Halm, D. R., and Dawson, D. C. Cation activation of the basolateral sodium-potassium pump in turtle colon. 315
Hanke, W., and Miller, C. Single chloride channels from *Torpedo* electroplax. Activation by protons. 25
Hartline, P. H. *See* Kass, Hartline, and Adolph.
Helman, S. I., Cox, T. C., and Van Driessche, W. Hormonal control of apical membrane Na transport in epithelia. Studies with fluctuation analysis. 201

J

Jones, G. J. *See* Muri and Jones.

K

Kass, L., Hartline, P. H., and Adolph, A. R. Presynaptic uptake blockade hypothesis for LSD action at the lateral inhibitory synapse in *Limulus*. 245

Kenyon, K. L. *see* Sutko and Kenyon.
Kirk, K. L., and Dawson, D. C. Basolateral potassium channel in turtle colon. Evidence for a single-file ion flow. 297
—, and Dawson, D. C. Mechanism of epithelial lithium transport. Evidence for basolateral Na:Na and Na:Li exchange. 497
Klodos, I. *See* Nørby, Klodos, and Christiansen.
Kort, A. A. *See* Stern, Kort, Bhatnagar, and Lakatta.
Kushmerick, M. J. *See* Crow and Kushmerick.

L

Lakatta, E. G. *See* Stern, Kort, Bhatnagar, and Lakatta.
Latorre, R. *See* Moczydlowski and Latorre.
—. *See* Vergara and Latorre.
Levick, W. R., Thibos, L. N., Cohn, T. E., Catanzaro, D., and Barlow, H. B. Performance of cat retinal ganglion cells at low light levels. 405
Lieber, R. L., and Baskin, R. J. Intersarcomere dynamics of single muscle fibers during fixed-end tetani. 347
Livengood, D. R. Coupling ratio of the Na-K pump in the lobster cardiac ganglion. 853
Lo, M.-V. C. *See* Shrager, Starkus, Lo, and Peracchia.
López-Barneo, J., and Armstrong, C. M. Depolarizing response of rat parathyroid cells to divalent cations. 269

M

Miller, C. *See* Hanke and Miller.
Moczydlowski, E., and Latorre, R. Gating kinetics of Ca^{2+}-activated K^+ channels from rat muscle incorporated into planar lipid bilayers. Evidence for two voltage-dependent Ca^{2+} binding reactions. 511
Morad, M. *See* Weiss and Morad.
Muri, R. B., and Jones, G. J. Microspectrophotometry of single rhabdoms in the retina of the honeybee drone (*Apis mellifera* ♂). 469

N

Nørby, J. G., Klodos, I., and Christiansen, N. O. Kinetics of Na-ATPase activity by the Na,K pump. Interactions of the phosphorylated intermediates with Na^+, $Tris^+$, and K^+. 725

O

Oxford, G. S. *See* Adams and Oxford.

P

Peracchia, C. *See* Shrager, Starkus, Lo, and Peracchia.
Prives, J. *See* Strichartz, Bar-Sagi, and Prives.

R

Rothstein, A. *See* Grinstein, Clarke, and Rothstein.
Russell, J. M., Boron, W. F., and Brodwick, M. S. Intracellular pH and Na fluxes in barnacle muscle with evidence for reversal of the ionic mechanism of intracellular pH regulation. 47

S

Sackin, H., and Boulpaep, E. L. Rheogenic transport in the renal proximal tubule. 819
Salzberg, B. M., and Bezanilla, F. An optical determination of the series resistance in *Loligo*. 807
Shapley, R. *See* Tranchina, Gordon, and Shapley.
Shrager, P., Starkus, J. C., Lo, M.-V. C., and Peracchia, C. The periaxonal space of crayfish giant axons. 221
Starkus, J. C. *See* Shrager, Starkus, Lo, and Peracchia.
Stern, M. D., Kort, A. A., Bhatnagar, G. M., and Lakatta, E. G. Scattered-light intensity fluctuations in diastolic rat cardiac muscle caused by spontaneous Ca^{++}-dependent cellular mechanical oscillations. 119
Strichartz, G., Bar-Sagi, D., and Prives, J. Differential expression of sodium channel activities during the development of chick skeletal muscle cells in culture. 365
Sutko, J. L., and Kenyon, J. L. Ryanodine modification of cardiac muscle responses to potassium-free solutions. Evidence for inhibition of sarcoplasmic reticulum calcium release. 385

T

Taylor, R. E. *See* Fernández, Taylor, and Bezanilla.
Thibos, L. N. *See* Levick, Thibos, Cohn, Catanzaro, and Barlow.
Tranchina, D., Gordon, J., and Shapley, R. Spatial and temporal properties of luminosity horizontal cells in the turtle retina. 573

V

Van Driessche, W. *See* Helman, Cox, and Van Driessche.
Vergara, C., and Latorre, R. Kinetics of Ca^{2+}-activated K^+ channels from rabbit muscle incorporated into planar bilayers. Evidence for a Ca^{2+} and Ba^{2+} blockade. 543

W

Walthall, W. W. *See* Corson, Fein, and Walthall.
Warshaw, D. M., and Fay, F. S. Cross-bridge elasticity in single smooth muscle cells. 157
Weiss, R. E., and Morad, M. Birefringence signals in mammalian and frog myocardium. E-C coupling implications. 79
